

NICOLAS SCHERNETZKI

Full-Stack Developer | Back-End Developer

Ituzaingó, Buenos Aires, Argentina • +54 11 6101-4743 • ngsrepresentaciones@gmail.com

[LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL PROFILE

Full-Stack Developer with a background in MERN Stack and .NET, focused on building real-world web applications with end-to-end ownership. Before formally studying programming, I was already automating processes with VBA in real business environments — oriented toward concrete solutions. Genuinely passionate about building things, currently seeking a role in tech. Advanced English (C1+).

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, C#, C++, Visual Basic

Frameworks & Platforms: .NET, Node.js, React, Express — MERN Stack

Databases: MongoDB, MySQL, MariaDB, Oracle

AI Tools: GitHub Copilot, Claude, Cline — AI-assisted development; local LLM deployment via Ollama and LM Studio (Gemma, Qwen)

Tools: Git, Docker, Visual Studio, VS Code, Microsoft Office

Methodologies: OOP, Agile, Full-Stack & Back-End Development

Languages: English (C1+), Spanish (Native)

PROJECTS

Mood App | [Live Version](#) | [Repository](#)

- Full-stack web application with Node.js and Tailwind CSS on the front-end, and Python with MariaDB on the back-end.
- Deployed to a live domain, demonstrating end-to-end ownership from development to production.

Personal Portfolio | [Live Site](#) | [Repository](#)

- Built and deployed a personal portfolio using React, TypeScript, Vite, and Tailwind CSS, with animations via Motion and a server-side API with Express.js.
- Deployed on GitHub Pages, showcasing projects, skills, and professional profile.

EDUCATION & CERTIFICATIONS

Full-Stack Programming — *Fundación Pescar · Banco Nación* | 2026 – Present

- 345+ hours of training in MERN Stack (MongoDB, Express, React, Node.js); delivered 4+ group and individual projects using agile methodologies.
- Development of RESTful APIs with Node.js and Express, MongoDB integration, and full frontend/back-end lifecycle management.
- Team collaboration under Scrum methodology, using Git for version control and group project workflows.

University Expert in Programming — .NET Track — *UTN.BA* | 2023 – 2024

- Developed 2+ back-end projects in C# and .NET applying OOP principles.
- Advanced training in software architecture, design patterns, and REST API development with ASP.NET Core.
- Proficient in Entity Framework, LINQ, and relational databases integrated within the .NET ecosystem.

Front-End Development Fundamentals — *Ticmas · Argentina Programa* | 2023

- Training in HTML, CSS, JavaScript, and React; development of responsive interfaces with a focus on UI/UX best practices.

WORK EXPERIENCE

Sales Representative & Process Automation | *Electrical Materials Companies* | 2016 – Present

- Built custom Excel tools with VBA macros to automate price list generation and order management — the first practical application of programming logic in a real business context.
- Managed and grew a portfolio of 100+ B2B clients with 25% growth, developing negotiation skills and business acumen applied directly to the product development cycle.
- Automated segmented email marketing campaigns to 500+ contacts and maintained 3+ product catalogs — standardizing workflows and reducing repetitive manual work.
