PROFESSIONAL PROFILE

Full-Stack Developer with a background in MERN Stack and .NET, focused on building real-world web applications with an end-to-end mindset. Before studying programming formally, I was already automating processes with VBA in real business environments — which defines my approach: oriented toward concrete solutions. Genuinely passionate about building things, currently seeking a role in tech. Advanced English (C1+).

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, C#, C++, Java, Visual Basic
Frameworks & Platforms: .NET, Node.js, React, Express — MERN Stack
Databases: MongoDB, MongoDB Atlas, MySQL, MariaDB, Oracle
Cloud & Infrastructure: AWS (S3, CloudFront, EC2, ACM), Docker, GitHub Actions CI/CD
Frontend: Redux Toolkit (RTK Query), Tailwind CSS, TypeScript, Vite
AI Tools: GitHub Copilot, Claude, Cline — AI-assisted development; local models via Ollama and LM Studio (Gemma, Qwen)
Tools: Git, Visual Studio, VS Code, Postman, Microsoft Office
Methodologies: OOP, Agile, Scrum, Kanban, Full-Stack and Back-End Development
Languages: English (C1+), Spanish (Native)

PROJECTS

EmotionShop — Full-Stack E-Commerce Platform | [Live version](#) | [Repository](#)

- Production-ready e-commerce platform built from scratch with the MERN stack and deployed on AWS infrastructure (S3, CloudFront, EC2, ACM).
- Features JWT authentication, role-based access control (Admin/Customer), product management with S3 image uploads, shopping cart, simulated checkout flow, ratings & reviews, and an admin dashboard with sales analytics.
- Stack: React 18, Vite, Tailwind CSS, Redux Toolkit (RTK Query), Node.js, Express.js, MongoDB Atlas, Docker, GitHub Actions CI/CD.

Mood App | [Live version](#) | [Repository](#)

- Full-stack web app with Node.js and Tailwind CSS on the front-end, and Python with MariaDB on the back-end.
- Deployed on a live domain, demonstrating end-to-end ownership from development to production.

EDUCATION & CERTIFICATIONS

Full-Stack Web Developer — Fundación Pescar · Fundación Banco Nación 2026 – Present

Web Full-Stack Programming — 237 hrs

- Development with MERN Stack (MongoDB, Express, React, Node.js); RESTful API construction and complete frontend/back-end integration.
- Delivered 4+ group and individual projects using Agile methodologies (Scrum and Kanban) with Git for version control.

Interpersonal Skills Development — 154 hrs

- Teamwork, effective communication, conflict resolution, and leadership in collaborative environments focused on the tech industry.

University Expert in Programming — .NET Track — UTN.BA 2023 – 2024

- Built 2+ back-end projects in C# and .NET applying OOP principles.
- Advanced training in software architecture, design patterns, and REST API development with ASP.NET Core.
- Proficiency in Entity Framework, LINQ, and relational databases integrated in the .NET ecosystem.

Front-End Development Fundamentals — Ticmas · Argentina Programa 2023

- Training in HTML, CSS, JavaScript and React; development of responsive interfaces with a focus on UI/UX best practices.

WORK EXPERIENCE

Sales Representative & Process Automation | Electrical Materials Companies 2016 – Present

- Built custom Excel tools with VBA macros to automate price list generation and order management — my first practical application of programming logic in a real business context.
- Managed and grew a portfolio of 100+ B2B clients with 25% growth, developing negotiation skills and business acumen directly applicable to the product development cycle.
- Automated segmented email marketing campaigns to 500+ contacts and maintained 3+ product catalogs — standardizing workflows and reducing repetitive manual work.
